

Dear Friends and Family,

The safety and welfare of our guests and staff will always be our top priority here at Good Day Café. Please know we are taking every precaution to go above and beyond our already rigorous standards to ensure our restaurant is a safe, welcoming space for guests and staff alike.

In addition to our usual daily deep cleans, we are disinfecting high-traffic areas such as door handles, menus, bar tops, and more — all with the care and attention to detail you expect from every experience here at the Café.

Likewise, we have installed state-of-the-art air purification systems (shown to kill bacteria and viruses, including coronaviruses), like those used in the White House and the Mayo Clinic, to further protect the good health of our Good Day family.

We will continue to monitor and follow any guidance provided by the World Health Organization, the CDC, and the Minnesota Department of Health.

We remain dedicated to being a bedrock of the Twin Cities community, and a place for us all to break bread, take time and appreciate one another.

With love,  
The Good Day Family
